

# IVAN KOZHEMIAKIN

Backend PHP Developer · Laravel Developer · Magento (Senior)

Ukraine (Remote) · kozhem1990@gmail.com · [Linkedln](#) · English: B1–B2 (client calls, EU teams) · Overlap with EST available

**8+ years** commercial PHP backend (Magento 2 / EU eCommerce). Hands-on **Laravel** projects: SaaS/ERP platform (REST API, Filament) and delivered **client task-management app** (priorities, drag-and-drop, PHPUnit). Seeking **Laravel developer** role — full-time or part-time, remote.

Laravel 12

PHP 8.2+

MySQL

REST API

Sanctum

Filament

Redis

Horizon

Breeze

Repository

PHPUnit

Vue.js

Alpine.js

Tailwind

Docker/DDEV

## LARAVEL PROJECT — TASK MANAGEMENT APP (2025 – 2026)

### Freelance client delivery · Projects & tasks web app

Laravel 13, PHP 8.3+, MySQL, Blade, Tailwind v4, Vite, Alpine.js, SortableJS, PHPUnit, DDEV · [github.com/ikozhemiakin/laravel-task-management](https://github.com/ikozhemiakin/laravel-task-management)

- End-to-end delivery for a small-team client: requirements → schema, migrations, Eloquent models, Blade UI, deploy-ready repo.
- Projects & tasks CRUD; global **priority** ordering (1 = top): insert-at-N with shift, auto-assign on create, stable sort by priority + id.
- Drag-and-drop reorder on “All tasks” (Alpine.js + SortableJS); persists order as 1, 2, 3...; project filter (reorder disabled when filtered).
- Feature tests, Laravel Pint, documented setup (DDEV/SQLite), production deploy checklist — handoff for client hosting.

## LARAVEL PROJECT — SAAS / ERP PLATFORM (2025 – PRESENT)

### Personal portfolio · CRM-style backend

Laravel 12, PHP 8.2+, MySQL, Sanctum, Breeze, Filament, Redis, Horizon, Cashier, DDEV

- REST API with Sanctum Bearer auth; API Resources for products/categories; pagination, search, price filters.
- Web CRUD: Form Requests, validation, Eloquent relationships, authorization policies.
- Repository pattern for data access; modular routes; events, listeners, queued jobs, mail notifications.
- Filament admin panel for users and business entities (SaaS admin workflows).
- Documented API/auth; production-oriented structure (thin controllers, typed PHP, strict types).

## LARAVEL SKILLS (VISO STACK ALIGNMENT)

|                 |                                                                       |
|-----------------|-----------------------------------------------------------------------|
| Backend         | Laravel 12, PHP 8.2+, OOP, PSR-12, existing codebase maintenance      |
| API             | REST, Sanctum tokens, API Resources, JSON contracts                   |
| Database        | MySQL, migrations, seeders, Eloquent, query optimization              |
| Auth / Security | Breeze, middleware, policies, Form Request validation                 |
| Admin / SaaS    | Filament CRUD, user management                                        |
| Infra           | Redis, Horizon queues, Telescope, Linux, Git, Docker                  |
| Frontend        | Blade, Vue.js, Tailwind, Alpine.js, Vite; interactive UI (SortableJS) |

PROFESSIONAL EXPERIENCE

---

Senior Magento Backend Developer · Freelance / Contract (EU) · 2015 – Present

- Custom modules, REST/GraphQL APIs, ERP/PIM integrations (Akeneo, Mirakl, FTP/cURL).
- Production support, Magento upgrades (2.3 → 2.4.x), import architecture, Elasticsearch performance.
- International teams: requirements clarification, release support, ownership of backend tasks.

SELECTED MAGENTO PROJECTS

---

Hirschmann Automotive 2024–25

Backend from scratch, import + MSI stock

Excellent 2023

Akeneo/ERP, B2B pricing, Elasticsearch

Hueber 2024

Import/stock refactor, performance

PayPair 2024

Mirakl marketplace import

Direct Fabrics 2025

Upgrade 2.4.8, optimizations

CTI clients (2026) VADO, Alexandra, etc.

Production support, checkout/catalog

CERTIFICATION & LANGUAGES

---

Magento Certified Developer (2017) · Ukrainian (Native) · English B1–B2

Available: full-time or part-time, remote, start immediately. Full Magento portfolio on request.
