EXPERIENCE

Senior Magento Backend Developer | Freelance / Contract (EU clients) | **2015 - Present**

- Developed custom modules for catalog, checkout, pricing, and admin workflows.
- Implemented integrations with Akeneo, Mirakl, ERP systems, and custom APIs.
- Delivered safe Magento upgrades (2.3 -> 2.4.x) and ongoing production support.
- Improved performance through Elasticsearch tuning and import refactoring.
- Available for remote backend roles as Magento Backend Developer and Laravel Backend Developer (Junior+ Laravel level, no commercial Laravel projects yet).

TECHNICAL FOCUS

- Custom Magento modules, backend architecture, and clean OOP implementation.
- Complex import pipelines: products, stock, tier prices, attributes, categories, media, and documents.
- Integrations with Akeneo, Mirakl, ERP systems, payment services, and external APIs.
- Data exchange via API, FTP, cURL, and
